

Bio-Barrier

Safety Shield Guard for Counter/Desk Tops

Shown with optional acrylic pocket for hand sanitizer

Keep communications flowing and relieve safety concerns and anxiety by protecting your employees and customers from surprise sneezes and coughs. TMG Safety Shield provides a clear barrier in an attractive frame to fit most environments.

Designed for desk & counter tops, the metal frame securely holds rigid, clear acrylic with rounded corners for additional safety. Rounded steel base (6" dia) with rubber pads prevent sliding. Fast, easy set-up. The powder-coated finish in neutral silver-colored frame easily fits any décor. Adjustable, too! Kit allows adjustment of acrylic for your applications for positioning 4" or 8" from bottom of desk.

Select from four sizes

24x24" - 30x30" - 24x30" – 24x36"

Ships KD; minimal assembly required. Made in USA; ships from our facility in Dupon IL (metro St Louis).

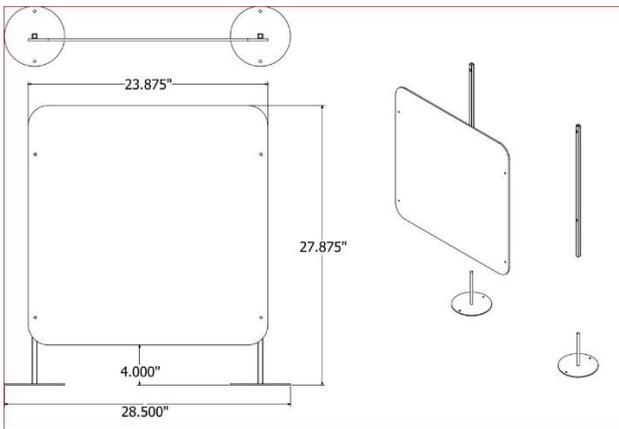

Optional acrylic pocket puts hand sanitizer (7.5 oz size) readily available. Pocket attaches with adhesive or double-faced tape. Pocket may be positioned on Safety Shield or used independently.
